

PVC Craftsman Tapered Column Specifications

**THE STYLE IS TIMELESS.
NOW THE COLUMN IS, TOO.**

Born out of the understated, practical tradition of the early 1900s Arts and Crafts movement, the square tapered column has become popular in modern adaptations of the the Craftsman, Prairie, Bungalow, Country and Mission style homes of today. Now this timeless style is available in expanded cellular PVC for quick, easy assembly and virtually maintenance-free performance!

PRECISION MITER JOINTS

Vertical edges of Craftsman shafts (tapered, non-tapered, pedestal and newel post styles) all incorporate the E-Z Lock miter joint for consistently straight miters.

PLAN TYPES

Craftsman Series are available in the following plan types. Please specify when you order. Plan O & N are available only as non-tapered.

Panel Styles

Plain/Smooth

Raised Panel

Recessed Panel

POLY-CLASSIC® CRAFTSMAN TAPERED SQUARE

Craftsman columns are available with plain, raised panel, and recessed panel shafts. (Since all tooling used for routing the panels is done with round bits, there will always be some radius in the corners.)

Nominal width	Available heights (A)	Shaft dimensions				Panel dimensions †			
		Bottom		Top		From bottom of shaft ‡	From top of shaft	From side of shaft	Width of routed channel
		Outside width (B)	Inside width (C)	Outside width (D)	Inside width (E)
